## Income Tax Rates

When you receive your matching share after the conclusion of the vesting period, this will be deemed a taxable benefit. Income tax and National Insurance will apply to your matching share as per the tax rate that is applied to you through payroll. For your reference, the income tax bands and rates for 2023/24 tax year are as follows:

### UK taxpayers subject to income tax in England, Wales and Northern Ireland:

- up to GBP12,570 per year: 0% (personal allowance);
- income between GBP12,571 to 50,270 per year: 20% (basic tax);
- income between GBP50,271 to 125,140 per year: 40% (higher rate);
- income over GBP125,140 per year: 45% (additional rate).

**UK taxpayers subject to income tax in Scotland** (a taxpayer will be subject to Scottish income tax if their main place of residence is in Scotland):

- up to GBP12,570 per year: 0% (personal allowance);
- income between GBP12,571 to 14,732 per year: 19% (starter rate);
- income between GBP14,733 to 25,688 per year: 20% (basic rate);
- income between GBP25,689 to 43,662 per year: 21% (intermediate rate);
- income between GBP43,663 to 125,140 per year: 42% (higher rate);
- income over GBP125,140: 47% (top rate).

All UK taxpayers whose income exceeds GBP100,000 in any tax year, will lose their personal allowance at the rate of GBP1.00 for every GBP2.00 over the GBP100,000 threshold, which increases their effective tax rate.

Employee social security (max rate): The rates for the 2023/24 tax year are:

- 12% for amounts between the weekly primary threshold (GBP242) and the upper earnings limit (GBP967 per week);
- 2% for amounts above the upper earnings limit.

## Capital Gains Tax

**Purchased Shares** - Where you decide to sell the shares that have been purchased using your contributions through payroll, capital gains tax (CGT) may apply. CGT applies on any gain on the difference between the price that you sell the shares at the price that they were purchased at. This is subject to application of the annual exemption and any available losses. No National Insurance is applicable.

**Matching Shares** - Where you decide to sell the shares that you received as a match, capital gains tax (CGT) may apply. CGT applies on any gain on the difference between the price that you sell the shares at and the price that the matching share vested to you at. This is subject to application of the annual exemption and any available losses. No National Insurance is applicable.

## Individual Tax Reporting

### How to report the income via tax return?

For most UK taxpayers, tax is withheld at source on earnings and savings and no additional reporting is required. However income is reported by the individual if they are required to, or choose to, complete a self-assessment tax return. Where you have dividend income, this should be included in your return. Where you earn more than GBP100,000 in a tax year, you should file a return.

Forms and information can be accessed and downloaded on the HMRC website. The participant must register for Self Assessment by 5 October.

### What's the reporting deadline?

The Self Assessment Tax Return must then be filed for online filing, by midnight on 31 January in the year following the tax year (ending 5 April).

### How will the taxes be paid?

Any outstanding tax must be paid by midnight on 31 January, although there may be a second payment deadline of 31 July where advance payments are made.
